## PROFILE

I am a Python Full Stack Developer with a strong passion for building efficient and user-friendly web applications. Known for my adaptability and problem-solving abilities, I excel at turning ideas into functional solutions. I enjoy working in collaborative environments and am committed to delivering high-quality results that meet user needs.

## PROJECTS

### Dreamy Delight (eCommerce)

Developed an e-commerce website for a cake business, offering a seamless shopping experience with features like product catalogs, user friendly navigation, and secure checkout. Integrated a responsive design to ensure accessibility across devices and implemented dynamic functionalities to enhance user engagement. Technologies Used: Python-Django, HTML, CSS, JavaScript, Bootstrap, SQLite3.

### Lunessence (Event Management)

Built an event management website to simplify and automate the planning process. Features include event booking, service catalogs, and real-time updates for seamless communication. Prioritized an intuitive interface to deliver an exceptional user experience and efficient coordination. Technologies Used: Python-Django, HTML, CSS, JavaScript, Bootstrap, SQLite3.

### Synnefo Solutions Website Clone

Created a functional clone of the Synnefo Solutions website, highlighting its course offerings and services. Implemented features such as detailed course listings, instructor profiles, and enrollment functionalities. Emphasized responsive design and user-friendly navigation to enhance the user experience. Technologies Used: Python-Django, HTML, CSS, JavaScript, Bootstrap, SQLite3.
